Dear Sir:

Having just finished reading your most interesting, provocative, and educational book Whitewash-The Report on the Warren Report-- I must write to you and let you know my feelings. And yet how can true feelings be put on paper? Shock? Unbelief--dismay, and fear??

The thought comes to me--if this can happen in OUR country-- the only one in the world with supposed Justice and Freedom--- we are no longer safe--- We are on the brink of RUIN! Justice HAS fallen in the street.

*We were living there then.* The murder of Oswald was heard live the day it happened, over KOB Albuquerque. I heard the radio announcer interview one of the police at the scene, immediately after the shooting. The police man refused to give his name. He sounded afraid to and the announcer made a comment about it, at the time. But the policeman did say that he had seen this man oswald at Ruby's night club about a week before. It is too bad a copy of this live broadcast was not kept. That was the last ever I heard of the "incident," although I listened carefully many times to see if anyone would question this.

Any thinking person after hearing this, and the way that the police answered, could tell something was wrong. From then on I was never satisfied with all of the managed and regulated material that came off the press about the whole afair.

Under seperate cover I am sending you a complimentary copy which I would like you to read. It tells of the conditions in the United States now, if you read far enough into the book.

We appreciate your efforts in getting <sup>your</sup> book ~~like this~~ to press.

May God bless you in your efforts to be honest and perpetuate Truth.

Sincerely,

*Mrs Jeanne M Bryant-*
